

Dr. P. SUREKHA

Designation: Associate Professor, Vice Principal

email: psurekha@lbc.edu.in

Dr. P. Surekha, an Associate Professor and Vice Principal of Undergraduate courses, holds a Ph.D. in Zoology and brings an impressive 29 years of teaching experience to her role. Her areas of research and specialisation include Animal Physiology, Taxonomy, Ecological Studies, and Histopathological Studies. She has published several research papers and presented her work at numerous national and international seminars.

Dr. Surekha is a member of Board of Studies (BOS) for Andhra University and St. Ann's Women's College, where she plays a key role in curriculum development and promoting academic excellence.

In addition to her teaching career, Dr. Surekha has served in a variety of administrative roles, including Head of the Department, Assistant Dean for Undergraduate courses, and Chief Superintendent for Spot Valuation and University Examinations. She is deeply committed to enhancing student engagement, encouraging participation in co-curricular activities, workshops, and seminars, and regularly organises annual field visits to research institutions such as CMFRI, CIFT, and FSI.

A strong advocate for holistic development, Dr. Surekha also holds a PG Diploma in Yoga and has conducted certification programmes for students. Her passion for Food and Nutrition has led her to organise several awareness programmes, exhibitions, and guest lectures for both students and faculty members.

Her hands-on teaching approach extends to guiding students in projects related to shrimp culture and spirulina cultivation. Dr. Surekha's dedication to both academic excellence and personal growth continues to inspire the student community.
