---

**Dr. K. Beulah**, an Associate Professor of Biotechnology at Dr. Lankapalli Bullayya College, Visakhapatnam, brings 33 years of teaching experience to her students. Since joining the institution in 2001, following her tenure at St. Ann's College for Women and St. Theresa's College for Women, she is known for her interactive teaching methods that prioritize practical learning. Her focus on hands-on experience in biochemical experiments, such as protein purification and enzyme analysis, has helped foster critical thinking and academic success among her students.

She earned her Ph.D. in Biochemistry from Andhra University in 2018 and holds an M.Phil. (2006) and M.Sc. (1989) in the same field. She qualified APSET in 2012, further showcasing her academic excellence. Her research centres on enzyme biochemistry, protein purification, and exploring the therapeutic potential of enzymes from medicinal plants.

She is an active contributor to the academic community, serving on the Board of Studies in Biochemistry at Andhra University. She has participated in numerous workshops, seminars, and conferences and has published six research papers in reputed journals. Her dedication has been recognized through awards, including First Best Paper Presentation at the 2019 International Conference on RACPL.
