

## A report on 2 day Workshop on Thin layer chromatography, Column chromatography and HPLC

A two day workshop on thinlayer chromatography , Column chromatography and HPLc was organised in collabration with Royal society of Chemistry , LSD on 16 th and 17<sup>th</sup> March 2026. Teachers and sudents from Post graduate and Undergraduate Departments participated in the work shop

The workshop commenced with an inaugural session.

The first lecture of the academic session was on thinlayer chromatography and Column Chromatography by Prof V.Peesapati, chairman ,Royal society of Chemistry

This was followed by a session on HPLC by Dr.Narendra kumar Talluri

The afternoon session commenced with a talk on Generic medicines by prof V .Peesapati.

This was followed by a lecture on Nmr by Prof G.V.R .Sarma. Head, Chemical research centre.

The highlight of the workshop was the practical session on TLC and column chromatography by Prof V.Peesapati and Dr.S.Ramakrishna

Another important part of the workshop was the Demo on HPLC by the Spinco Team
